## ELECTION REQUIREMENT

1. Claims 1-23, 26-27, 40-42 have been cancelled by Applicant.

### *Election of Species*

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

(1) the temperature for returning into the first shape:

(a) below or equal to  $T_g$  (as recited in claims 24-25, 28, 31-39, 53, etc.)

(b) greater than  $T_g$  (as recited in claims 29-30, 43-52, 54, etc.)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The species listed above do not relate to a single general inventive concept under PCT

Art Unit: 1794

Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: The common feature in these claims is the ability of a shaped and reshaped PBT object to return to an initial shape, which is known in the art (JP 02-269735) and therefore does not meet the requirement of a "special technical feature" as required for unity of invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
